

Hokushin Martial Arts

New Membership and Fee Structure – 2018

The membership structure and the method of payment has been designed so that we can deliver the highest quality of training to all students. Instructors will be devoting as much time as possible to the personal needs of students and the continual development of the syllabus; they will not be involved in the collection of regular fees, these will be collected by a management company - NEST Management Limited - who specialise in the collection of fees from Martial Arts students. The primary aim of the school structure is to allow students to make a commitment to their karate training and to attend as often as possible at a price that represents excellent value for money. Fees are charged monthly and will be based on an annual program calculated on 48 weeks of training paid in 12 equal monthly payments. At the equivalent of only **£1.60 a day** for an activity that will change the lives of those who participate in it for ever, is indeed one of the bargains of the year! Who knows, it may even save your life!
